

*From beginner to expert*

# [Tools] How to use ChatGPT for our study?

**Ask me questions! I knows everything!**

# **What I found ChatGPT can do by far?**

- 1. Write codes for specific tasks**
- 2. Write reasonably good sentences/paragraph with brief inputs**
- 3. List down relevant papers related to specific field**
- 4. Summarize scientific papers with reasonably good performance**
- 5. Know correct answers about basic biological questions, propose research plan**
